

# 2019 Reserve Pinot Noir

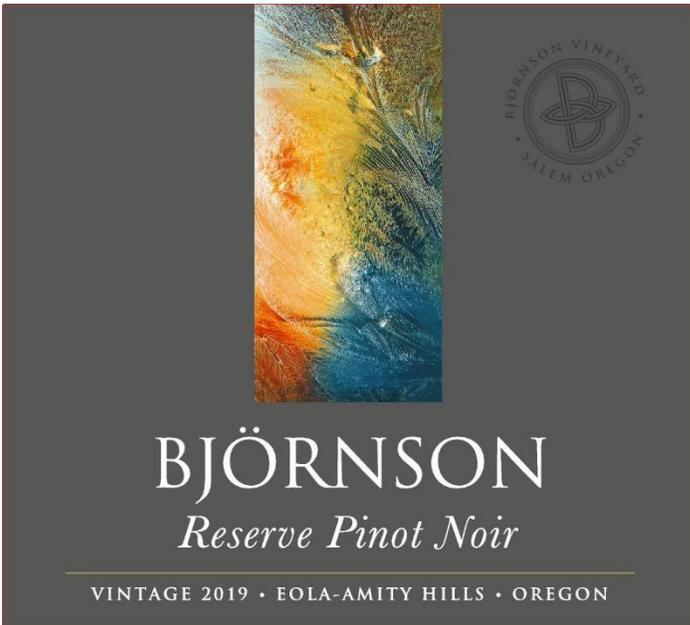

Eola-Amity Hills AVA | Willamette Valley | Oregon

**Björnson Vineyard** is part of a scenic 107-acre farm, located in the heart of Oregon's Willamette Valley. We are committed to generating renewable energy, farming sustainably, and making wine with minimal handling, so that each bottle fully expresses our exceptional terroir.

**The Grapes** for this wine come from our 28-acre Björnson Estate vineyard in the Eola-Amity Hills AVA. The vineyard is situated on a primarily southwest aspect at an elevation ranging between 450'-550' with predominantly rocky Nekia volcanic soils. This Pinot Noir is 100% estate fruit from our multiple clones and diverse vineyard blocks.

**The Wine** is designed to accompany and enhance the culinary experience. It pairs great with food because of its balance of structure, tannin, and bright, mouth-watering acidity coming from the Wadesville Pinot Noir clone (comprising almost 50% of the blend), and has a beautiful deep, ruby-red color.

**The 2019 Vintage** was a stressful vintage and quite a departure from the previous five uncharacteristically hot vintages. The cool wet spring helped the vines handle what initially was a reasonably warm summer, and the sugar accumulation in the grapes was almost complete before the cold wet fall arrived. With disease pressures high and brix levels plateauing or barely increasing, many growers and vintners had to make some tough picking decisions. Despite the stress and the light crop load, Björnson Vineyard stayed vigilant and was able to produce some exceptional wines. The long hangtime (period from bloom to harvest) extended past 100 days in most cases allowing us to make wines with a greater phenological maturity without excess sugar. This resulted in wines of depth without over-ripe character, or elevated alcohol which retained their natural acidity.

*Reserve Pinot Noir*  
VINTAGE 2019 • EOLA-AMITY HILLS • OREGON

**Appellation:** Eola-Amity Hills AVA, Willamette Valley, Oregon

**Vineyard:** Björnson Estate

**Vinification:** The fruit was hand-picked, sorted, and destemmed without crushing to maintain whole berries during fermentation. The fermenters received a short cold soak before being inoculated. Gentle pump-overs were performed at the beginning and end of the fermentation curve with punch-downs being implemented during peak fermentation to break up the cap. Most of the fermentations were complete and pressed off the skins 20 days after harvest. Malo-lactic conversion was completed in barrel with *sur-lee* aging for 10 months in 37.5% new French oak.

**Harvested:** Oct. 6 - Oct. 10, 22.2-24 Brix

**Finished Wine:** Alc. 13.6%, pH 3.46, TA 5.9 g/L

**Bottled:** Aug. 26, 2020, 224 cases
